

DRY VACUUM PUMP 103 AC-K

Evolution of dry vacuum AC pump idea that emphasizes 103 series advantages with VOLUMETRIC + CENTRIFUGAL CYCLES optimizing the efficiency at 3000 RPM

BORA103 AC-K detail

BORA 103 AC-K Silenced

A highly compact design rationalizes **overall dimensions** and grants a fast installation. The specially designed enclosure allows maximum silent operation.

BORA103 AC-K

| | |
|--|------------|
| Geometric flow @ 3000 RPM m³/h | 310 |
| Maximum vacuum % | 85 |
| Absorbed power kW | 8.5 |
| Intake pipe nominal diameter | 80 |
